

HIGH PERFORMANCE CONDUIT

*****The conduit to use with 1/16" (1.59 mm) up to 1/8" (3.2 mm) diameter wire.*****

*Don't need the exceptionally high quality of **PC7** "Blue" Premium Conduit?
Then Weldmatic's High Performance Conduit is the conduit to use!!!*

High Performance Conduit has similar properties to Weldmatic's **PC7** "Blue" Premium Conduit and in typical operations a drop off in quality is not noticeable. What is noticeable is the lower upfront cost. High Performance Conduit has great wear characteristics and low coefficient of friction that perform better than HDPE conduits and other polymers. High Performance Conduit is competitively priced and available in two sizes.

CONDUIT

PC4-HP High Performance Conduit
.472" (12 mm) O.D. x .312" (7.9 mm) I.D.

PC6-HP High Performance Conduit
.600" (15.2 mm) O.D. x .400" (10.2 mm) I.D.

RECOMMENDED WIRE SIZE

1/16" (1.59 mm) or smaller diameter wire

1/16" (1.59 mm) up to 1/8" (3.2 mm) diameter wire

CONDUIT

PC4-HP High Performance Conduit

PC6-HP High Performance Conduit
